

Veneer Masters

Dutch Marine Panels

Welcome at KUIPER Holland

Kuiper Holland has more than 60 years of experience in manufacturing sandwich panels, high quality veneered and hard plastic boarding materials. Half a century of permanent quality improvement of our products and organisation, has taken us to the top of our field in Holland.

The success of Kuiper Holland is based on the quality of our products. Reliability, flexibility and commitment are factors that are taken very seriously by Kuiper, resulting in fast and accurate delivery schedules, smooth logistics and a keen eye for problem solving. As a committed partner, we like to get involved with the projects of our customers at an early stage, working closely together to reach optimal results.

Dutch Marine Panels

Kuiper Air | Lightweight Panels

For weight reduction in yacht interiors Kuiper can offer various lightweight panels.

Kuiper Protect | Fire-Retardant Panels

Kuiper also manufactures certified panels. We constantly develop new materials and certified solutions.

Kuiper Serene | Soundproof Panels

Essentially important for the yacht and ship building industry are soundproof panels. We also have the ability to manufacture a custom made panel.

Kuiper Basic | Plywood & Panels

Every standard material has its own specific properties. Kuiper Holland can supply a wide range of standard plywoods & panels.

Kuiper Art | Esthetic Panels

We can manufacture different kinds of decorative panels: Veneered panels and HPL panels.

Kuiper custom made

In addition to our wide range of panels there is always an opportunity to order something bespoke. In collaboration with our specialists we are able to supply any type of panel you desire.

Give us your special request and we will ensure that the end result lives up to your expectations.
